

CHRISTIAN BIRINGANINE

FULL STACK WEB DEVELOPER

[Email](#) | [GitHub](#) | [LinkedIn](#) | [Twitter](#) | [Portfolio](#)

SUMMARY

Full-stack web developer, coming from an electrical technology background with a first-class honor degree; I'm definitely familiar with the sort of fast-paced, intense environment found in a lot of Software industries, problem-solving skills, effective communication, and more. with a love for clean code and accessible design. Addicted to Pair-programming and remote work, and capable of ramping up quickly and efficiently.

SKILLS

Front-End: JavaScript, React, Redux, HTML5, CSS3, SASS, Bootstrap

Database: PostgreSQL

Back-End: Ruby, Ruby on Rails

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Mentoring

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Remote

Full Stack Web Developer

November 2021 – Present

Budget App — Mobile web application where the user can manage their budget: they have a list of transactions associated with a category so that they can see how much money they spent and on what.

- Built with: Ruby on Rails, and Bootstrap. Link: [here](#)

Covid-19 App — This project is about building a web application to check a list of metrics (numeric values) that I had to create making use of React and Redux. I have selected an API that provides numeric data about the Covid-19 dataset per country and then build the web app around it.

- Built with: React, Redux, and CSS3. Link: [here](#)

Bookstore — The Bookstore is a website application that allows the user to: Display a list of books. Add a book. Remove a selected book. All the Data are stored in an API. [here](#)

- Built with: React, Redux, CSS3

Movie poster — Movies poster is a website that consumes TVMaze API where people can find interesting series or movies of any kind in case they are looking for something to watch and are not sure about which one to watch.

- Built with: HTML5, CSS3, and JavaScript. Link: [here](#)

MICROVERSE

Remote

Code Reviewer

September 2022 – Present

- Ensuring the quality of source code and conducting code and UI reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- I'm responsible for any review feedback that recommends necessary rework. Using GitHub and Slack to give students quick answers to project-related issues.

Mentor (Volunteer)

April 2022 – Present

- Mentored junior web developers, providing technical support through code reviews.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

EDUCATION

MICROVERSE

March 2022 – October 2023

Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

KIGALI INDEPENDENT UNIVERSITY

September 2018 – December 2021

Advanced Diploma, Electrical Engineering

- Relevant coursework or thesis: Study and implementation of a system converting single into three phases for home appliances and consumers located in remote areas
- First-class honor
